

## Christmas News 2024

### Dear pilgrim

*Peace is the hope that dwells in war...* Events in the Middle East are unfolding rapidly; we look anxiously to Syria, where no pilgrim has been able to cross the country on the Way to Jerusalem for 12 years! Our hope is that the revolution is a step toward democracy and lasting peace.

It is all the more important that we continue to work for peace through the Jerusalem Way and, at the same time, support every pilgrim as best we can on the long journey to Jerusalem. *Every pilgrim is a sign of hope!*

### We hereby ask YOU for support for our running costs of the club activities

(Peace activities in the countries on site, strengthening international partnerships, development of the Jerusalem Way app, back office financing, new access roads, on-site meetings to develop new cooperation, UNESCO, ...).

**With YOUR support of, for example, €5.00 to €10.00 per month**, we can continue to implement the above-mentioned association activities to the best of our ability and further consolidate the sustainable establishment of the Jerusalem Way. According to Wikipedia and ORF, we are now the longest Peace Way in the world! See also the [pilgrimage route](#) website .

The JERUSALEM WAY International Peace Team eV is a non-profit organization and has set itself the goal of sustainably establishing the Jerusalem Way as the longest peace path in the world.

Pilgrims are now even coming to Europe from other continents to make a statement for peace along the Jerusalem Way. See [OÖN article](#) and [TIPS news](#)
